

BONSAI BABYLAND™ Instruction Booklet

Grow your own Bonsai Tree!

Planting Instructions

1. Remove the planter, potting soil, and seeds from the terrarium.
2. Place the round soil disc in a container. Add a small amount of water at a time until the soil disc have completely absorbed the water and turns into a balanced soil mixture. Stir to fluff up the soil up.
3. Add the pebbles to the bottom of the planter to serve as a drainage field for your seeds.
4. Empty the potting soil into container.
5. Press the soil down firmly so there are no air pockets in the soil.
6. Spread your Bonsai Seeds over the top of the soil.
7. Gently push the seeds so they are 1/4 inch below the soil surface.
8. Water the soil until fully saturated.
9. Fill the bottom of the terrarium with water.
10. Place Bonsai Babyland onto the bottom of the case and cover with the top.
11. Keep your terrarium in a warm location where it will get a few hours of sunlight each day.
12. Be sure to keep the bottom of the terrarium filled with water at all times.

Good luck!

We hope you have a lifetime of fun with your bonsai!
